Tons are of 2,000 pounds. Spot values.
Counties not mentioned made no mineral production during 1002.

*This Bureau has never independently collected statistics of precious metal output, but has used totals and distribution by county, as obtained at the United States Mint, San Francisco.

(a) Commercial value.

(b) Flasks of 78½ pounds.

(c) Utilized for Sulphur contents.

(d) Value of that commercially used.

(e) Barrels of 42 gallons. Prices, average f. o. b. at wells.

(f) Includes common, pressed and fire.
 (g) For smelting-tlux, beet-sugar manufacture, and paving.
 (h) For sea-wall construction, railroad and concrete work, etc.
 (i) So-called Basalt Blocks.
 (j) Unapportioned includes product of single mines, etc., in counties, so as to conceal their identity; and also includes estimates of product of properties known to be working, but from which no returns were obtained.
